

ALCATEL-LUCENT OMNITOUCH 8082 MY IC PHONE

NATIVE HOSPITALITY PACKAGE WITH ALCATEL-LUCENT OMNIPCX ENTERPRISE COMMUNICATION SERVER RELEASE 10

The Alcatel-Lucent OmniTouch™ 8082 My IC Phone delivers a new way to easily access a variety of hotel services and communications options. Thanks to a very intuitive interface and high-resolution touch screen, guests will appreciate the convenient comforts enabled by the 8082 My IC Phone.

With a customized and unique interface, the 8082 My IC Phone allows hotels to create more brand impressions. Hotel services are highlighted and can be modified according to the hotel's needs. In addition to its customization capabilities, the 8082 My IC Phone introduces intuitive navigation with rich contextual menus and its capacitive haptic touch screen. It also offers exceptionally high-quality audio through its Bluetooth® handset or when using hands-free mode (see Figure 1).
