

ALCATEL-LUCENT OMNISWITCH 6450

ENHANCE THE EDGE

GET 4 FOR THE PRICE OF 3

The Alcatel-Lucent OmniSwitch™ 6450 Stackable Fast Ethernet and Gigabit Ethernet LAN value switch family offers versatile, 24/48-port fixed configuration switches with optional upgrade paths for 10 Gigabit Ethernet (GigE) stacking, 10 GigE uplinks and metro Ethernet services. This switch is ideal for the edge of small-to-mid-sized networks, or branch office, or residential and commercial managed services applications.

6450EP48

Offering a design optimized for flexibility and scalability as well as low power consumption, the OmniSwitch 6450 is an outstanding edge solution. It uses the field-proven Alcatel-Lucent Operating System (AOS) to deliver highly available, secure, self-protective, easily managed and eco-friendly networks.

- Pay for three, get one free
- Recycle unwanted LAN gear for FREE
- Part of the portfolio that earned Alcatel-Lucent a VISIONARY ranking in the Gartner MQ for LAN Access, 2014
- 24 and 48 port versions available, with or without PoE/PoE+
- Part of the portfolio that earned Alcatel-Lucent a VISIONARY ranking in the Gartner MQ for LAN Access, 2013
- Scalability from 24 to 384 Fast Ethernet and gigabit ports and 16 10 GigE ports
- Deploy at the edge of your LAN
- Enhanced Voice over IP (VoIP) and video performance with policy-based QoS
- Future-ready support for multimedia applications with wire-rate multicast
- IEEE 802.3at PoE+ support for IP phones, wireless LAN (WLAN) access points and video cameras)

EDUCATION

The 6450 is widely deployed in K-12 and higher ed, delivering the performance needed for high density BYOD environments.

HEALTHCARE

The 6450 provides the edge for a healthcare environment where everything has an IP address: from pumps to RTLS tags to security cameras to mobile image capture devices.
